1. A request for continued examination under 37 CFR 1.114 was filed in this application after appeal to the Board of Patent Appeals and Interferences, but prior to a decision on the appeal. Since this application is eligible for continued examination under 37 CFR 1.114 and the fee set forth in 37 CFR 1.17(e) has been timely paid, the appeal has been withdrawn pursuant to 37 CFR 1.114 and prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on November 4, 2003 has been entered.

The following is an examiner's statement of reasons for allowance: Claims 1-6, 8, 9, 11, 14, and 15 are deemed allowable over the prior art of record or any combination thereof. The prior art rejections set forth in the Office action mailed February 3, 2003 are withdrawn in view of the claim amendments and for the reasons given by Applicants in their response filed November 4, 2003. With respect to the rejection based upon Hora et al in view of the Nath et al article, the examiner also adds that the disclosure of Hora et al is limited to polypeptide compositions, where "polypeptide" is defined at column 12, lines 69-61, as generally comprising more than 21 amino acids. This teaches away from the peptide of the Nath et al article, which comprises only five amino acids.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
